

USER INTERFACE DESIGN

EXP.NO:7

REG.NO:230701258

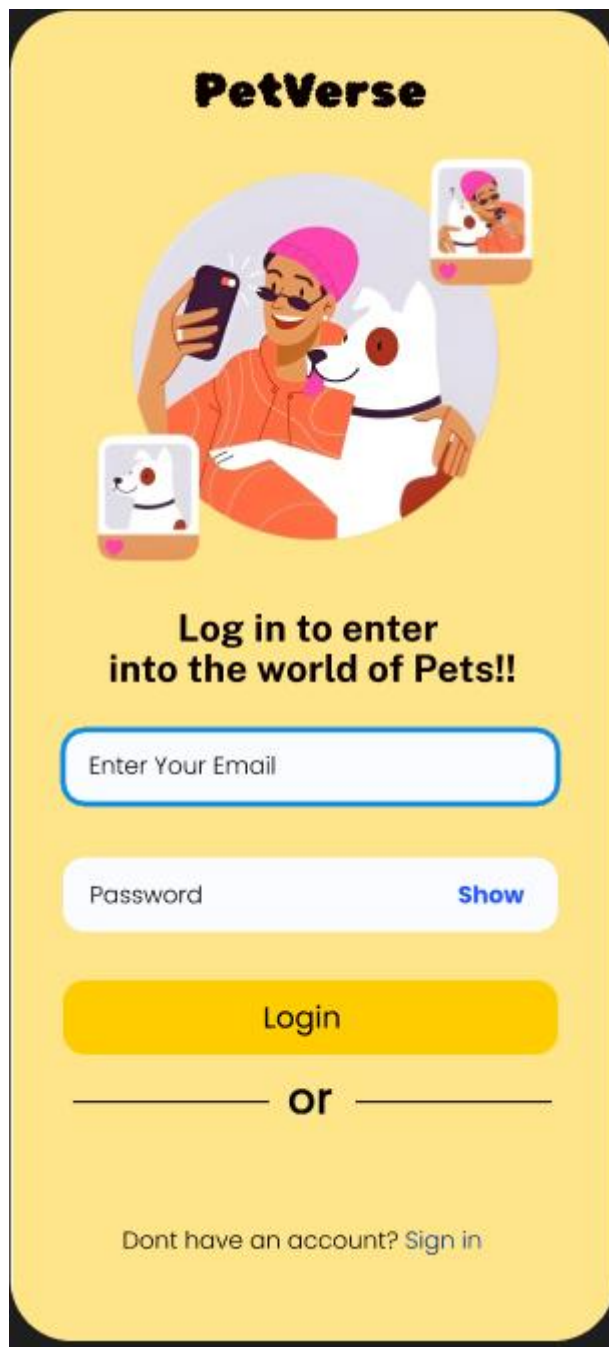

DATE:30.04.2025

AIM : The aim is to trial different app layouts and color schemes and evaluate user feedback on aesthetics and usability using GIMP.

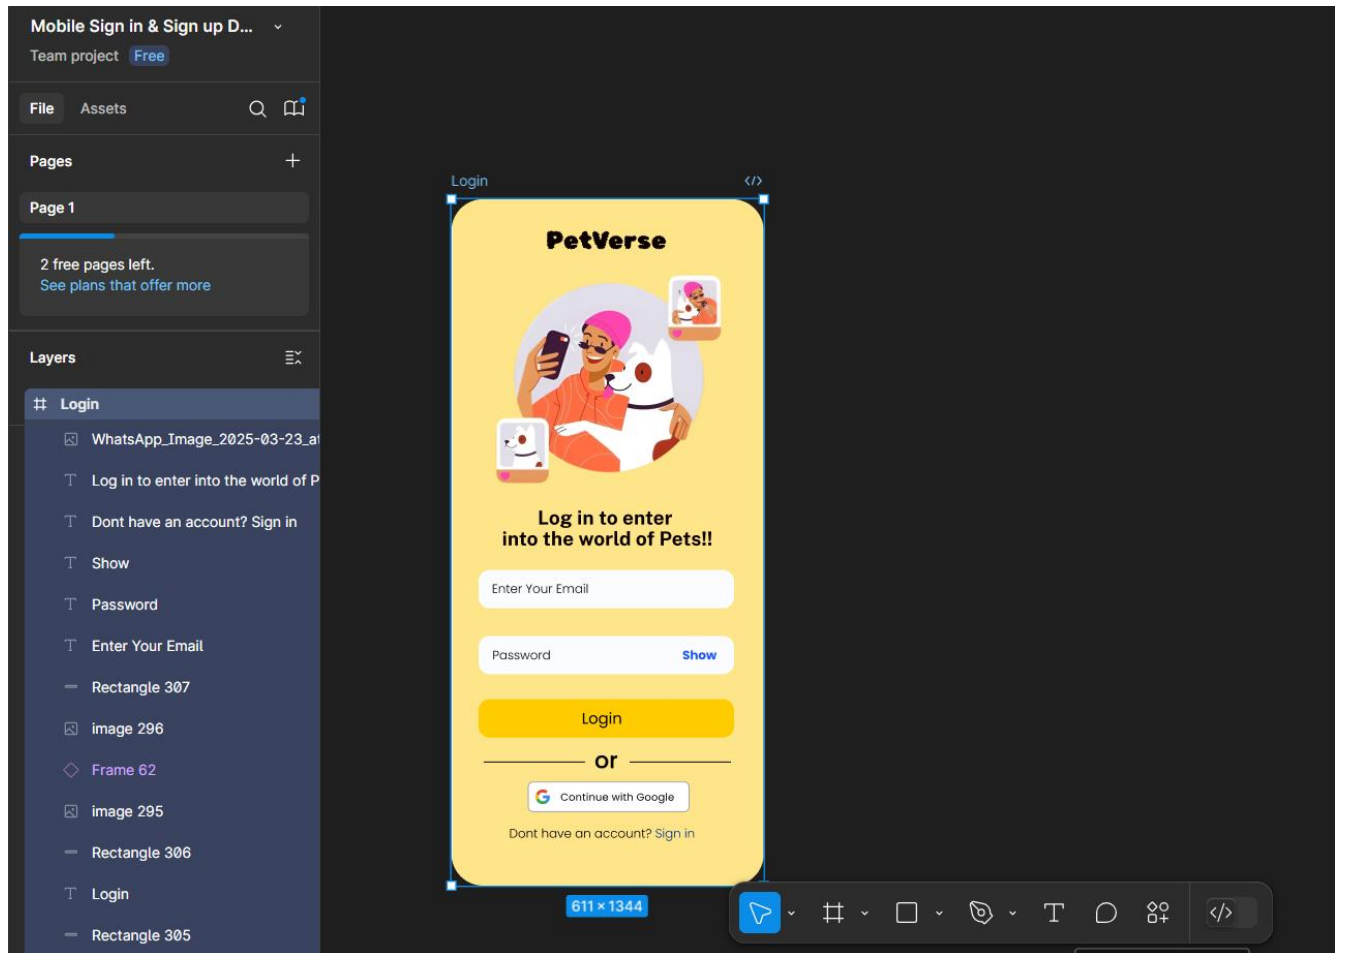

→ **Base Layout:**

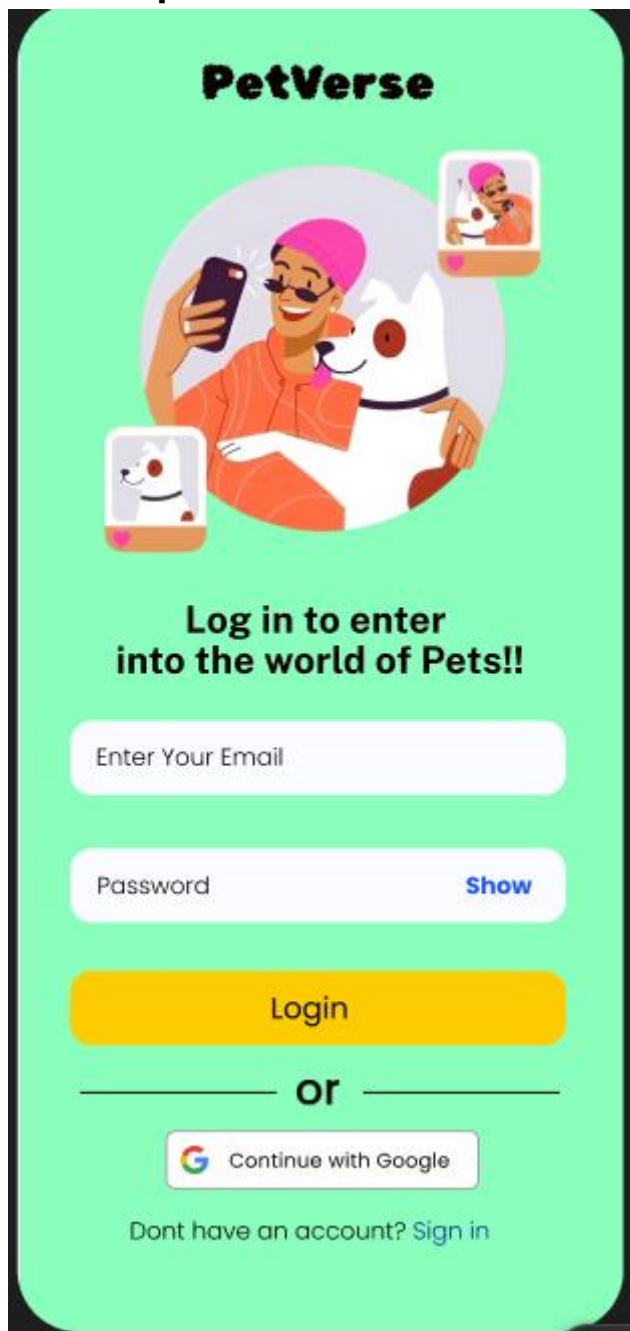

→ Added UI Elements:

→ Organised Layers:

→ Experiment with Color Schemes:

→ Collected User Feedback

Google Form Feedback Analysis: Yellow vs Green Variant

1. Which layout do you prefer?

- Yellow Variant: 60%
- Green Variant: 40%

🔍 **Interpretation:** Most users preferred the Yellow layout, indicating it may be more visually appealing or better structured.

2. Which color scheme feels most professional?

- Yellow Variant: 65%

- **Green Variant: 35%**
🔍 **Interpretation:** The Yellow color scheme is seen as more professional, potentially due to its brightness or better contrast.

3. How easy was it to find buttons and inputs?

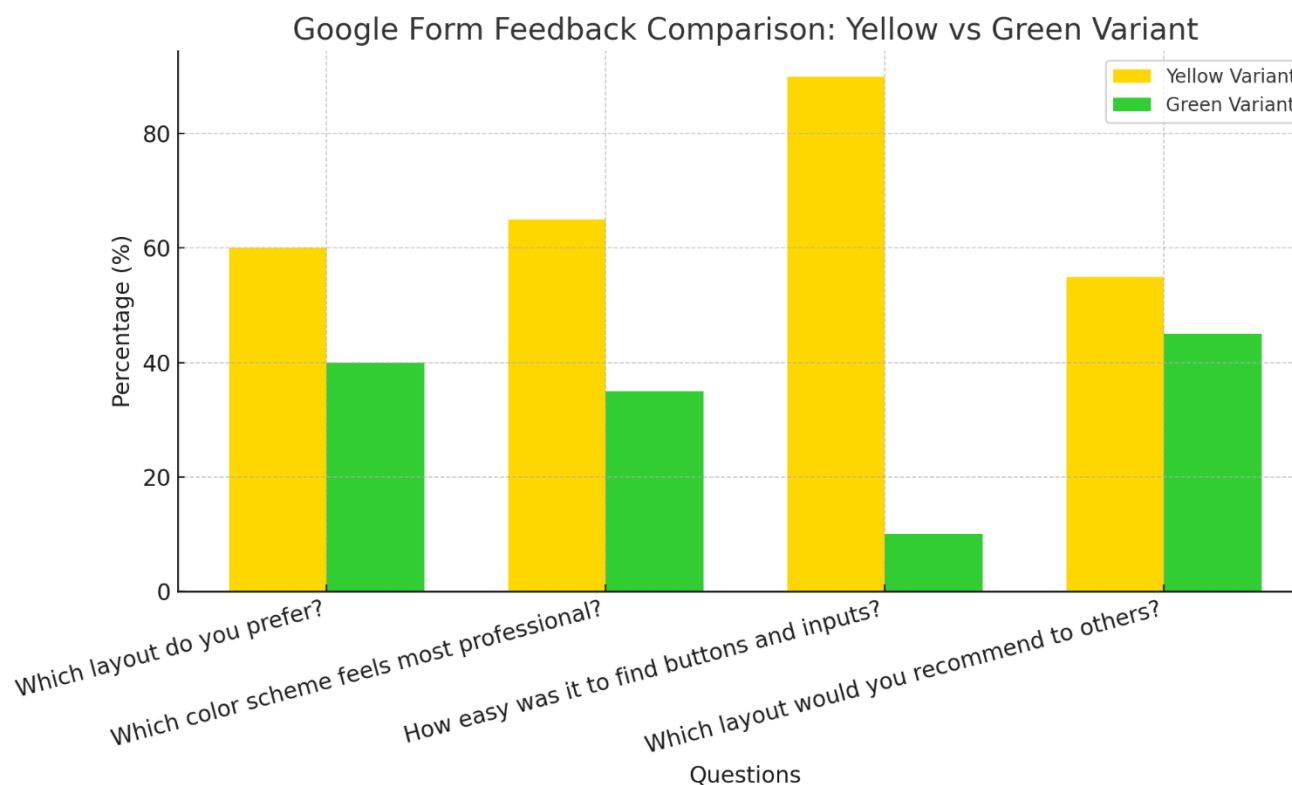

- **Yellow Variant: 90%**
- **Green Variant: 10%**
🔍 **Interpretation:** Navigation and usability are clearly better in the Yellow variant, with a very high ease-of-use score.

4. Which layout would you recommend to others?

- **Yellow Variant: 55%**
- **Green Variant: 45%**
🔍 **Interpretation:** While Yellow still leads, this is the closest category, suggesting Green also has its merits worth exploring.

📊 Visual Representation

As shown in the graph above, Yellow dominates across all feedback categories, especially in **usability** and **professional appearance**. Green, while liked by some, consistently ranks lower.

One suggestion:

It would be even better and more convenient if there were additional login options like Google and Apple ID login buttons it would make signing in faster and easier for users.
